SWAN SERIES

This series is inspired by swans,
and its streamlined handle resembles a swan' s beak.
Its primary curve structure and overall profile lines are smooth,
simple, elegant, and distinguished,
following the influence of the 'swan' design.

BRIGHT MOON SERIES

The rounded square handle echoes the structure of the main body,

and the overall design is compact and smooth

with a number of integrated square and round patterns.

Its curvaceous, elegant suggestiveness implies a degree of nobility in spite of its rigid plainness.

In a world of hard edges, these fixtures are shining round full moons.

STAINLESS STEEL SINK SERIES

In the end, ornamentation always falls away from the brightest and most beautiful things in life, and routine reveals the true nature of all people and objects as they are washed again and again in the river of life.

focuses on the three principles of health. user-friendliness, and comfort, and has used these core guidelines to create healthy stainless steel sinks that are exquisite in appearance, high-quality, resistant to rust, easy to clean, and highly differentiated, while making it easier for you to wash and making your life that much easier.

- All-in-one process, no gaps, improved reliability.
- Environmentally friendly thick electroplating effectively prevents condensate and prevents the cabinet from rotting.
- Food-grade SUS304 stainless steel; healthy and durable.

BATHROOM ACCESSORIES

Bathroom accessories are primarly made of high-quality H59 copper, zinc alloy, aluminum alloy, stainless steel, and glass. After undergoing a high-precision plating procedure and 12 hours of an acid salt spray test, their paint is highly resistant to peeling, and their surfaces are smooth and easy to clean.

Bathroom accessories are characterized by their comprehensiveness in terms of product type, as well as their remarkable quality and exquisite appearance, and these factors have won favor among our customers.

Grade A+ high-quality H59 copper

Copper pendants are made of high-quality H59 copper

Rust-resistant and easy to clean

Bathroom eccessories employ electroplating, electrolysis, brushed stainless steel, and other types of surface treatment processes, which are characterized by their careful selection and use, exquisite appearance, rust resistance, easiness to clean and use, and other user-friendly features.
